### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The problem addressed by the instant method/process is to avoid corrosion in the separation of methylamines from a product stream obtained in the preparation of methylamines, ( see page 1, lines 6-7 of the instant specification).

This problem is solved according to the invention by adding alkali metal hydroxide to the feed to a second or third column in the distillation plant, ( see original claim 1, and page 2, lines 7-12).

None of the prior art of record addressed the problem solve by the claimed invention, nor discloses, suggests or renders obvious the subject matter of claims 9-16. Thus, the claims are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Virginia Manoharan whose telephone number is 571-272-1450.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola, can be reached on 571-272-1444.
